

## Company Overview

EMCG Construction Corporation was created as a full-service design/build, general contractor and professional manager of construction services. Such services complement the company's other areas of expertise from tenant build outs to renovation/preservation projects.

## Leadership & Experience

EMCG's experience has been obtained during Eng. Egberto Morales-Carrasco's association with the most prestigious construction companies of the Island during 40 years & Eng. Egberto "Berti" Morales Gorjon's education and management experience, which have offered us the opportunity to enhance our knowledge and capabilities within the industry. Said experience was attained while carrying out the many different levels of responsibilities dealt within positions such as Project Engineer, Project Manager and Company Vice President at different companies in a variety of construction projects such as, multi-story office buildings, multi-story parking buildings, public and private housing, schools, hotels, hospitals, industrial buildings, the San Juan Urban Train and others. Both understand the unique demands and priorities of each project and work closely with their project teams to make every single one a success.

## Client Services & Commitment

EMCG offers private owners and governmental agencies our experience through Construction Management and General Contractor services.

EMCG specializes in providing services from the initial phase of the project to completion. Regardless of the type of service required, you can be assured that EMCG will get the job done within time with quality and professionalism.
